3rd Sector Engagement within an  
Integrated Health & Social Care  
Partnership

Wendy Jack  
Strategy and Policy Manager

## National Review of Community Planning

*“Several respondents felt that the third sector was more reactive to change and whole system working than the statutory sectors.” Integration of Adult Health and Social Care Consultation Analysis Report, December 2012*

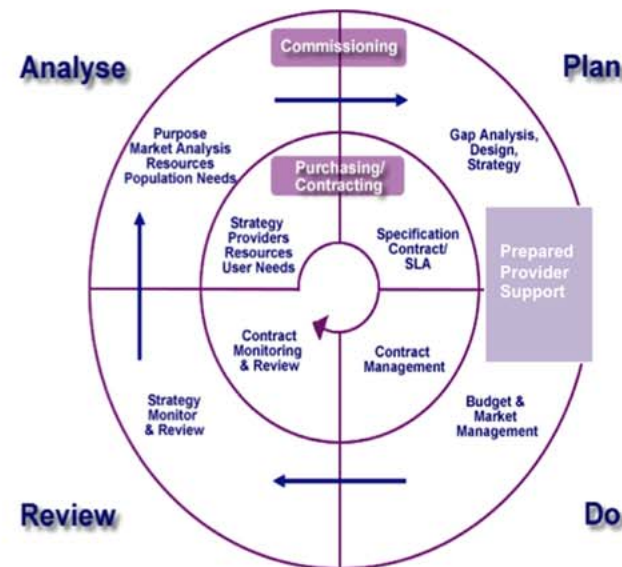

**Objective 1: Strategic Involvement - an informed, included and participative Third Sector in West Dunbartonshire**

- Policy Review/Service Design Involvement
- Information Sharing and Representation Methods

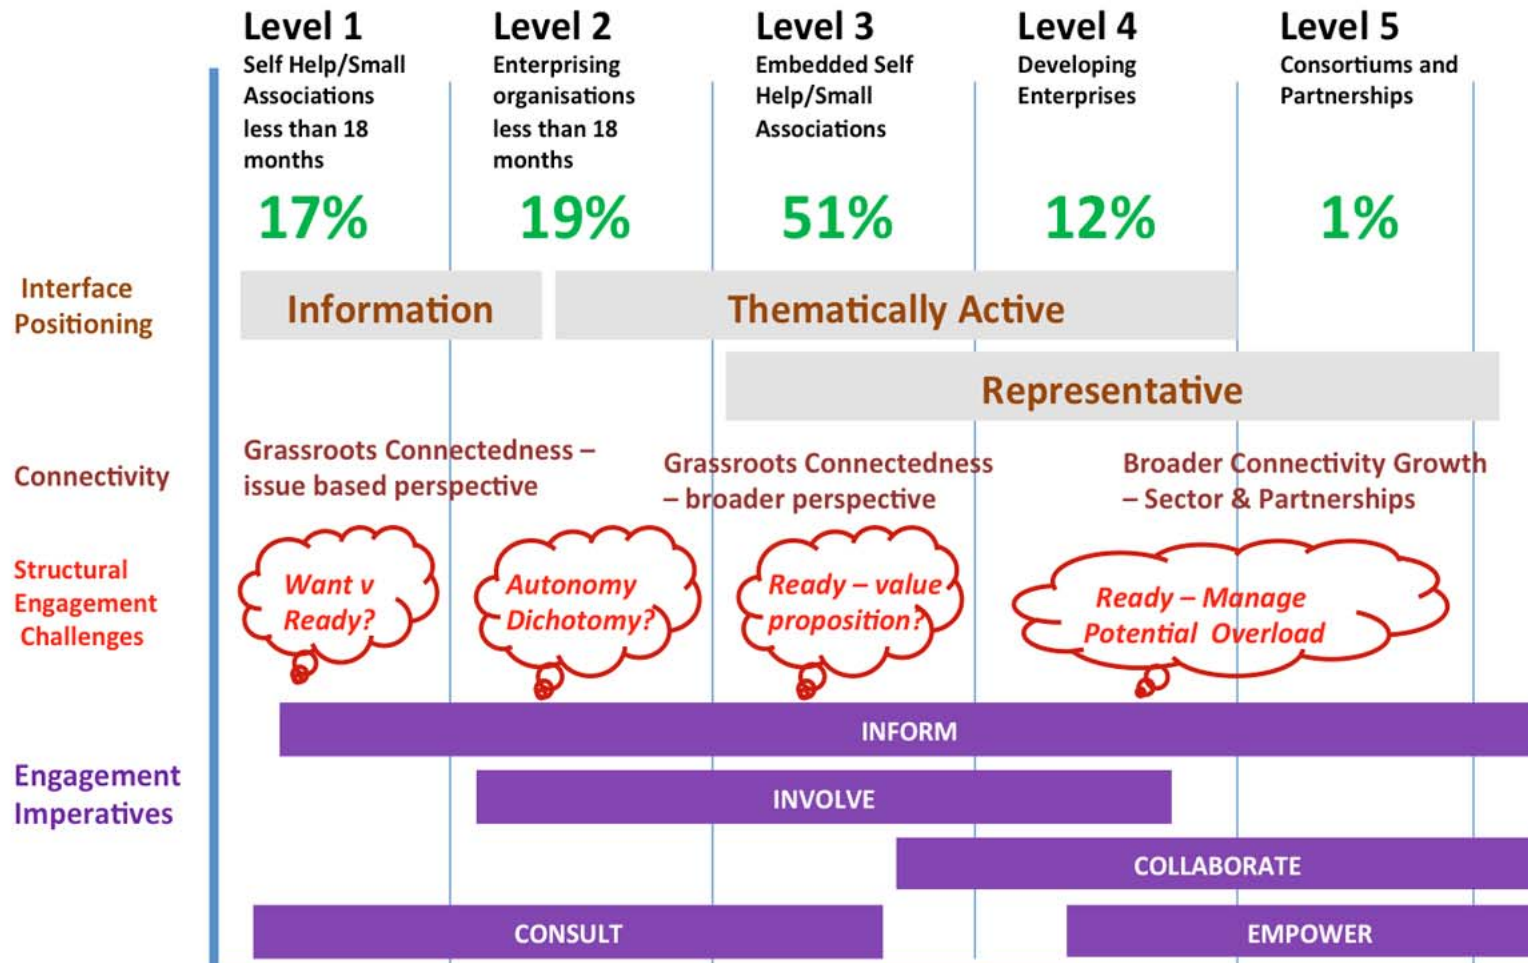

**Objective 2: Prepared Providers – developing and supporting a procurement ready Third Sector in West Dunbartonshire.**

Both parties will promote fair and appropriate access to strategic, project and contract funding, with decisions about procuring or commissioning services based on principles concerning preparedness, quality and value for money and not on nominal cost alone.
