

**Tomorrow's World Today: New Frontiers in Mental Health**  
**Thursday 1 March 2018, Stirling Court Hotel, Stirling**  
**Sponsorship and exhibition opportunities available**

Join us on the 1st of March at our conference to discuss the future of mental health in Scotland .

This is a collaborative conference, organised by VHS, Support in Mind Scotland and the Open University in Scotland.

How is our technologically enabled, globalised and digital society changing our understanding of mental health and wellbeing? Can we predict what a society with good mental health will look like in 10, 20 or 50 years' time? Is there evidence that we are adapting and developing new attitudes, strategies and technologies for looking after our mental wellbeing? Or is our uncertain, unequal and fast changing world putting an intolerable strain on our mental wellbeing? What are the necessary ingredients for developing and maintaining a healthy, connected mind throughout our lives?

## **Exhibition and Sponsor Options:**

### **Exhibition stand at the conference**

We have a limited number of exhibition stands available in the refreshment area of the conference to chat to delegates over registration, coffee breaks and lunch about your work. This includes 2 delegate places at the conference.
