

# Home Energy Scotland

1 September 2022

# Home Energy Scotland advice network

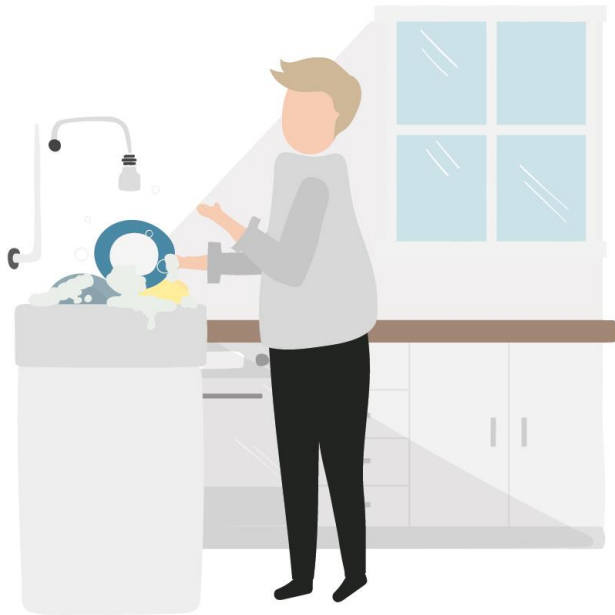

# Our advice

# Tailored energy advice

We can give expert energy advice tailored to each person's circumstance:

- Control your heating
- Understanding bills
- Water saving
- Using appliances

# Warmer Homes Scotland

People might be able to get grant funding from the Scottish Government to make energy efficiency improvements, like new heating or insulation.

Home Energy Scotland is the **only** way to access Warmer Homes Scotland

# Warmer Homes Scotland eligibility

Owner occupier or private sector tenant **and**

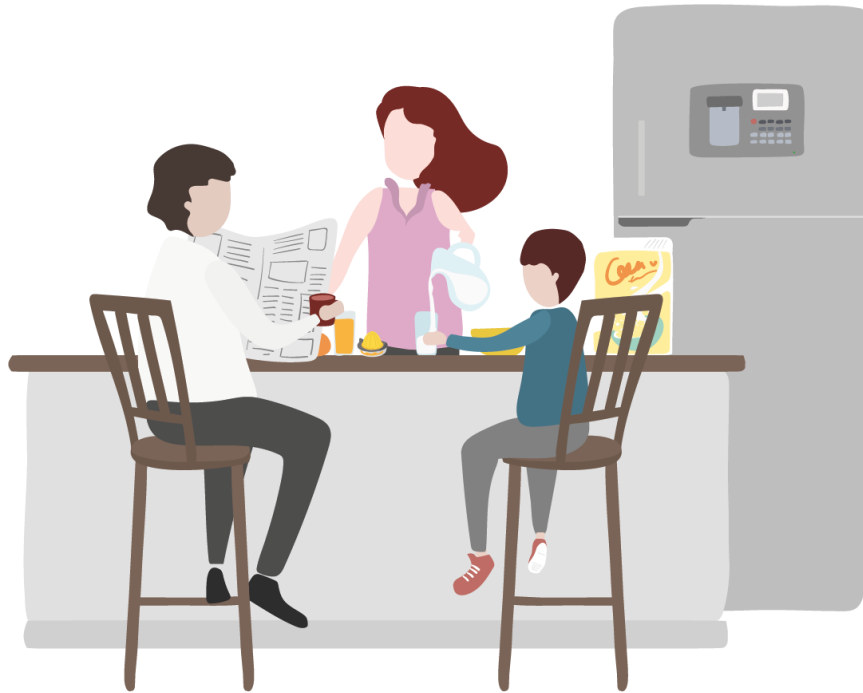

Have lived in the property for more than 12 months\* **and**

Low energy efficiency rating **and**

Meet the other conditions which are related to personal circumstances and passport benefits. For example:

- ✓ Be aged over 75 and in receipt of a passport benefit
- ✓ Pregnant and/or have a child under 16 and be in receipt of a passport benefit
- ✓ Have a disability and be in receipt of any level of Personal Independence Payment
- ✓ Be a carer in receipt of Carers Allowance

# Home improvement loans

We are funded by the Scottish Government and offer interest free loans for a whole range of energy saving, bill-reducing, low-carbon technology from loft insulation to solar panels.

- Interest free loans for energy efficiency and renewables
- Private Landlords Loan

# Electrify journeys

HOMEENERGYSCOTLAND.ORG
