

# Summary of the Manifesto for

# HEALTH Creation

## 1. Create a Prevention-Centred Health System

- Shared definitions of prevention and simplified accountability
- Lived experience and Third Sector meaningfully engaged in decision-making
- Sustainable funding of social prescribing, including the Community Link Worker Network

## 2. Prioritise Health Equity and the Right to Health

- Health equity as cross-cutting government priority
- Cross-party consensus
- Rights-based approach to decision-making
- Respectful narratives
- Tailored treatment for LTCs, including palliative care
- Protect the right to health of unpaid carers.

## 3. Establish Third Sector Parity

- Formal and equal partnership between Public and Third Sector bodies
- Embed SCVO's Fair Funding principles
- Funding arrangements that support equitable pay.
- Invest in the Volunteering Action Plan to increase volunteering

## 4. Improve Health Measures and Datasets

- Consult widely to identify national outcomes and indicators
- Improve quality, transparency and intersectionality and national datasets
- Solutions for patient data which empower people to share their health information with partners.
